

Job Description for Cable Assembler

Overview

Chess Dynamics is an established Leading Design & Manufacturing business, with several sites across the UK. Our product range is cutting-edge and services the surveillance and defense industries with products that aid specific client requirements - driving innovation is at the heart of everything we do.

We currently require a Cable Assembler to join our Production Team.

Key Responsibilities:

- Working on both prototype and production assemblies, accurately assembling equipment to drawings.
- Ensuring any modifications during the Build process are documented and highlighted to the Team Leader so change requests can be implemented.
- Liaising with production control when kits are incomplete.
- Crimping pins onto wires and fitting connectors to drawings.
- Lacing cables using Kevlar or Nylon Cord.
- Applying braid/heatshrink over cable looms.
- Verifying cable dimensions using basic measuring equipment.
- Continuity testing of all cables.
- Applying identification labels to cable assemblies.
- Help run crimp pull-off tests.
- Fitting and shrinking of connector environmental boots.
- Assist the cabling team in fitting and populating connectors.

The Successful Applicant:

- Proven experience in a similar role is required, working to MIL-STDs is preferred.
- Knowledge of wiring standards IPC 620 and 610 would be advantageous but not essential.
- Good problem solving skills with an ability to read technical wiring diagrams.

What's on Offer

A competitive salary with benefits including 26 days Annual holiday (Plus Bank Holidays), Contributory Pension, Income Protection, Childcare Vouchers and a High-Street Discounts Scheme.

If you are interested in applying for this position, please forward your CV and Covering Letter to recruitment@chess-dynamics.com
