

## **Job Description for Electro-Mechanical Assembler**

### **Overview**

Chess Dynamics is an established Leading Design & Manufacturing business, with several sites across the UK. Our product range is cutting-edge and services the surveillance and defense industries with products that aid specific client requirements - driving innovation is at the heart of everything we do.

We are currently recruiting for an experienced Mechanical Fitter to join our Production Team. Work will involve the assembly of mechanisms, machines and equipment accurately in accordance with Engineering Drawings, diagrams and procedures.

### **Key Responsibilities:**

- Prototype and production assembly of machines to Engineering drawings and procedures.
- Ensuring all modifications during the build process are documented & Change request forms completed.
- Liaise with production control when kits are incomplete.
- Modifications to existing parts using basic machine tools such as drills, lathes and mills.
- Manufacture of simple brackets, mounting plates and simple tooling.
- Checking that all work meets quality and technical standards.
- Effective communications with engineering team to sort out issues during the build.

### **The Successful Applicant:**

- BTEC or HNC/HND in an Engineering discipline would be preferred.
- Previous experience in a similar position, ideally within a MoD workshop environment.
- Ability to use manual machine tools and hand tools is essential.
- Experience using manual lathes and mills is desirable.
- Ability to read and interrogate complex technical drawings.

### **What's on Offer**

A competitive salary with benefits including 26 days Annual holiday (Plus Bank Holidays), Contributory Pension, Income Protection, Childcare Vouchers and a High-Street Discounts Scheme.
